# How to Receive Your Money in Nigeria

Earning dollars is only useful if you can actually access the money. Here are the 4 platforms every Nigerian freelancer should know:

Platform	Best For	Fee	■ Works in Nigeria
<b>Payoneer</b>	Fiverr, Upwork, global clients	~2%	YES
<b>Wise</b>	Direct client bank transfers	Low flat	YES
<b>Grey</b>	All international payments (fast)	Very low	YES (instant)
<b>Selar</b>	Selling digital products locally	5%	YES (local bank)
<b>Gumroad</b>	Global digital product sales	10%	YES + Payoneer

■ Avoid PayPal as your primary method — it has significant withdrawal limitations for Nigerian accounts. Stick to Payoneer or Grey for most transactions.
